

DIGITAL EXPERIENTIAL LEARNING (DExL)

Experiential learning entails a hands-on approach to learning that moves away from the teacher at the front of the room imparting and transferring their knowledge to students.

Digital Experiential Learning is learning through virtual simulations delivered through VR and 3D technologies.

THE NEW DIGITAL-FIRST WORKFORCE

96% own a **SMART PHONE** and have never known life without **TECHNOLOGY**

59% believe that their **PROFESSIONAL DEVELOPMENT** is as important as the **JOB** they are doing

59% of the **AVAILABLE WORKFORCE** are ages **19-38**

50%+ spend **AT LEAST 10** hours a day on **5** different devices

VIRTUAL AND IMMERSIVE HANDS-ON LEARNING

Skills are mastered in days, not months

Learning and training are more enjoyable

Simplifies complex learning

Retention improved by 3x

Mimics real life

Safer and risk-free

Learning retention rates average 80% after one year

Surgeons trained with VR performed 29% faster and made fewer mistakes

Students trained with VR learned 4x faster than classroom alone
