

# Meet Inflation Reduction Act (IRA) Requirements with an Online Registered Apprenticeship Program

## Simplify the Complex

Interplay Learning's apprenticeship experts can help you navigate the complexities of the Inflation Reduction Act (IRA) and its registered apprenticeship program requirements.

We specialize in creating and managing registered apprenticeship programs, relieving the administrative burdens of compliance and saving you time. Our experts take the lead on starting your new program or supplementing an existing program with a modern, online curriculum approved by the Department of Labor.

From obtaining state-level approvals to choosing the right curriculum, our team works with you every step of the way.

## Meet IRA Qualifications

We prioritize your ability to meet IRA apprenticeship qualifications. Our expert team ensures that your program aligns perfectly with industry standards and IRA requirements.

## Gain Flexibility with Online Apprenticeships

Our modern approach to apprenticeships offers unmatched flexibility for your workers. Using an online delivery method that revolutionizes the apprenticeship model, you get high-quality, expert-led training and hands-on 3D simulations, reducing the need for in-person classroom training.

Additionally, your workers have the flexibility to learn anytime, anywhere using a mobile device, laptop, desktop computer or VR device.

## Streamline Implementation and Reporting

With Interplay, you can offload the administrative burden to our team of experts and stay focused on your core operations. Our streamlined solution is simple to implement and provides the detailed reporting, insights, progress monitoring and tracking you need to stay compliant.

**THE IRA IS EXPECTED TO BOOST SOLAR DEPLOYMENTS BY 48% AND CREATE 137K NEW JOBS BY 2033**

# Three Flexible Apprenticeship Options

## Offload Program Creation, Curriculum, and Program Management

### Start

Start your craft laborer or electrical apprenticeship program with support from Interplay's experts. They will:

- Provide guidance on registered apprenticeship policies and compliance.
- Submit all documents for registration to the Office of Apprenticeship or State Apprenticeship agency.
- Offer hands-on program design, curriculum, and implementation.
- Share best practices for on-the-job training, related instruction, and wage tracking.

### + Supplement

Integrate Interplay's high-quality training seamlessly into your existing apprenticeship program to meet related technical instruction (RTI) requirements:

- Choose from over 400 hours of expert-led video courses and hands-on 3D simulations.
- Obtain assistance with curriculum mapping and RTI reporting.

### ⚙️ Steward (Full Service)

Take advantage of full administrative management from the creation of the program throughout its entire duration:

- Handle all paperwork and administrative tasks associated with starting, registering and managing an apprenticeship program.
- Design a curriculum that pairs Interplay's courses with your on-the-job training.
- Manage apprentice completion submissions and compliance tracking of on-the-job training hours, RTI hours, and wage outline.
- Research ongoing grant opportunities with support for application and reporting.
- Train supervisors and location managers on apprenticeship process.
- Provide guidance for licensure in correlating states.
