

# Unlock Profitable Growth by Building a More Confident Workforce

## Make Your Team Job-Ready Faster, Easier, and Better

As experienced plumbers continue to retire without replacements, your business is challenged with hiring under-skilled contractors to fill those roles--a task that is both time-consuming and costly, leaving you less time to focus on what matters most--growing your business.

Help your apprentices and entry-level plumbers get job-ready faster and easier by delivering immersive, online plumbing training designed to meet them where they work best. With Interplay, you can:

- Use assessments to get an in-depth view of your team's abilities and identify gaps. Document and hold all new hires to a specific standard.
- Ramp apprentices quickly and help experienced plumbers grow their skills safely with hands-on 3D simulations and VR.
- Reduce callbacks, third-party costs, and poor reviews by upskilling and cross-training your team.
- Feel confident you are providing your team training created by industry educators and subject matter experts.

## Boost Productivity and Drive Technician Growth

Interplay works with you to drive continuous learning, improve the skills of your team and boost on-the-job performance and productivity.

With our wide range of training options, you'll have the resources you need to bridge the gaps in your team's skill-levels and give them the ability to do their best work. Here are five ways you can partner with Interplay to drive results:

- **Ramp and Onboarding:** Drive consistency across your business by having all of your new hires going through the same ramp process.
- **Promotion and Raises:** Promote and incentivize your team by rewarding new skills acquired or cross-training being done.
- **Certifications & Safety:** Help your technicians prepare for certifications and drive on-the-job safety with certification & safety pathways.
- **Addressing Problem Areas:** Identify areas that need improvement across your entire team and develop a plan to remediate.

## What Interplay Plumbing Customers Are Saying

**4X** companies using Interplay grow their business 4X faster than industry peers

## Expert-Sourced Training Content Built to Rapidly Develop Your Team

With Interplay, you can give your entire team the opportunity to expand their knowledge and skills by delivering online plumbing training built by industry experts and instructional design professionals who understand what top technicians need to know.

These experts cover the foundational elements - tools, measurements, codes - and also provide real-world use cases and troubleshooting scenarios.
