

# HVAC Excellence Employment Ready Certifications From Interplay Learning

## Help Students Earn Certification

Interplay offers HVAC Excellence Employment Ready Certification exams with our immersive trades training, making it easier to equip students with the knowledge, skills, and certifications needed to start meaningful trades careers.

The HVAC Excellence Employment Ready Certification is designed specifically for students and entry-level technicians. It validates a learner's knowledge for employment and gives employers a standardized measurement of a job applicant's knowledge regardless of where they were trained.

Employment Ready Certification exams offered by Interplay Learning include:

- Air Conditioning
- Basic Refrigeration and Charging Procedures
- Electrical
- Electric Heat
- Heat Pumps

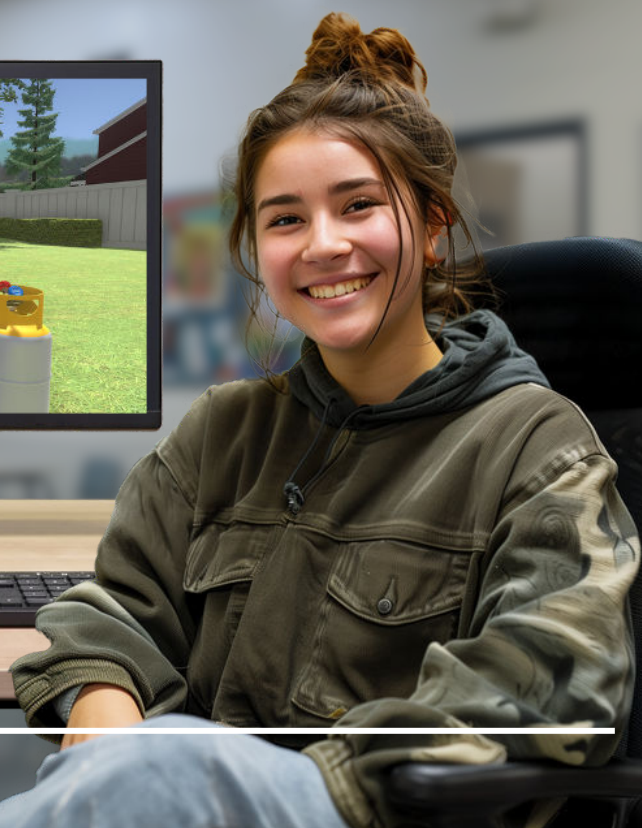

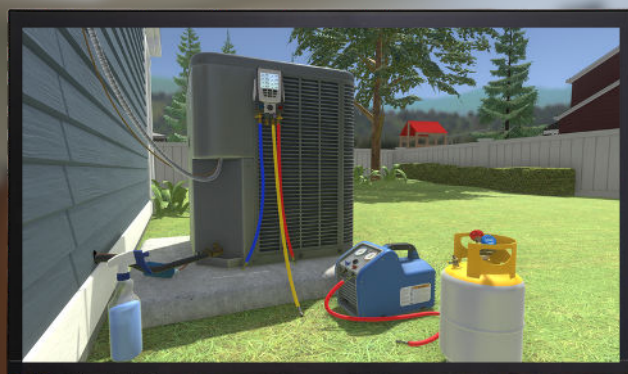

## Use Tailored Learning Paths

Interplay has the perfect courses to help learners earn HVAC Excellence Employment Ready Certification. Give students the knowledge they need with learning paths and courses that are aligned directly with HVAC Excellence's Employment Ready Certification exams.

Our online courses can be easily mapped into your existing curriculum. Featuring high-impact video content, hands-on simulations, and quizzes, you can give your students the tools they need to succeed.

## Add Online Certification at an Affordable Price

It's easy to add HVAC Excellence Employment Ready Certification exams to your Interplay subscription. Each exam is US \$59 per learner, which includes secure, live, online proctoring via ProctorU.

# Choose Nationally Recognized Certifications and Training for Your Program

## Air Conditioning

- **32 Courses**  
*(includes videos, simulations, knowledge checks)*
- 100-Question Exam
- **Covers:** Air conditioning and refrigeration theory, equipment service, systems and components, troubleshooting, refrigerant flow control theory and application.

## Basic Refrigeration and Charging Procedures

- **21 Courses**  
*(includes videos, simulations, knowledge checks)*
- 50-Question Exam
- **Covers:** AC&R theory, AC&R systems and components, air supply and delivery, refrigeration AC troubleshooting, refrigeration systems, components, theory and application, special refrigeration system components, system charging.

## Electrical

- **35 Courses**  
*(includes videos, simulations, knowledge checks)*
- 100-Question Exam
- **Covers:** Components, meter usage, safety, theory, troubleshooting, fundamentals of motors and capacitors, interpreting electrical diagrams.

## Electric Heat

- **29 Courses**  
*(includes videos, simulations, knowledge checks)*
- 100-Question Exam
- **Covers:** Systems and components, equipment installation and service, heating systems and components, safety, theory & application, troubleshooting.

## Heat Pumps

- **29 Courses**  
*(includes videos, simulations, knowledge checks)*
- 100-Question Exam
- **Covers:** Components, controls, heat pump cycle, service, theory, troubleshooting, interpreting heat pump schematics.
